ANNEX II**Victoria Mutual Wealth Management Ltd (VM WEALTH)
Client Disclosure Statement for Retail Repurchase
Transactions and Investments****What is a Repurchase Agreement (Repo)?**

The Repurchase Agreement is an investment product, which by contract involves the simultaneous sale and future repurchase of an asset. Usually one party sells the securities and agrees to buy them back at an agreed price on a specified date.

The agreement does not transfer the legal ownership of the underlying asset from the dealer to the client. Repurchase Agreements are not bank deposits and are not insured by the Jamaica Deposit Insurance Corporation.

What are the risks of securities trading?

The prices of securities fluctuate. The price of a security may move up or down, as a result of market conditions, losses may be incurred rather than a profit made as a result of buying and selling securities based on the market risk conditions at the time of the transaction.

How will the securities be held?

It is a regulatory requirement for an approved Trustee and Registrar to hold all the securities underlying the Retail Repo contract in trust, for your benefit.

The current Trustee is Jamaica Central Securities Depository Trustee Services Limited. However, VM Wealth may use the services of other approved Trustees or Registrar from time to time.

The role of the Trustee is to ensure that the underlying securities are held separately from the dealer's assets, in order to adequately protect your beneficial interests.

Risks of Client Assets Received or Held outside Jamaica.

Client assets received or held by the Company outside of Jamaica are subject to the applicable laws and regulations of the relevant overseas jurisdiction. Consequently, such client assets may not enjoy the same protection as that conferred on client assets received or held in Jamaica.

Insolvency of VM Wealth

Securities held by a Trustee shall not be deemed or construed as an asset of VM Wealth and shall not be available in the event of any Act of Insolvency or bankruptcy proceedings against VM Wealth and shall be construed strictly as held upon trust for the sole benefit of the respective Client.

How to terminate a repurchase agreement earlier?

If a client wishes to terminate a transaction prior to the repurchase date and the seller is willing to facilitate the early termination, then the seller may reduce the repurchase price in accordance with interest rates and elapsed time period since the repurchase date. An early termination fee and a transaction cost may be imposed by the seller.

Please contact your Wealth Advisor for additional details.

How are underlying securities valued?

The value of the underlying security is based on the market price which is ascertained by the Bloomberg yield curve, plus a 5% regulatory margin. Kindly note that VM Wealth may, from time to time, use a different method for market price valuation.

In addition, regulations may from time to time, stipulate valuation methodology.

What are the risks associated with currency?

Retail Repo transactions are currently restricted to Jamaican Dollars (JMD) and United States Dollars (USD) only. The profit or loss in currency conversion may be affected by fluctuations in exchange rates. Where there is a need to convert from the currency of the Repo contract to another currency, ensure that you consult your Wealth Advisor before taking an action.

How will disputes between parties be resolved?

In the event of any dispute between VM Wealth and the client which remains unresolved by the parties for more than 60 days, then such dispute may be referred to the Dispute Resolution Foundation of Jamaica.
