RECOMMENDATION & RATIONALE

RECOMMENDATION: OVERWEIGHT

For the nine months leading up to December 2023, net interest income (NII) saw a notable 17.97% increase, attributed to broader income spreads across banking subsidiaries, driven by rising global interest rates and the expansion of the core credit portfolio. A significant factor contributing to the seven-fold surge in net profit to US\$19.85 million was the fourfold rise in the share of profit from associates. The completion of the Proven Place office development at the intersection of Lady Musgrave Road and Gladstone Drive has generated substantial momentum for the property subsidiary. Furthermore, the company has disclosed that additional development projects are currently in progress, with others in the pipeline, expected to bolster gross profits from property sales and contribute to enhanced overall profitability. A dividend payment of US\$0.0015 per share was declared by the Board in February 2024.

RECOMMENDATION: MARKETWEIGHT

After a record breaking 9-month period ending in September 2023, SOS invested \$130 million to acquire additional warehousing space at 26 Collins Green Avenue in Kingston. The newly acquired property, which is strategically located near the company's existing location at 34 Collins Green Avenue, will primarily serve as a warehouse. The construction of the new warehouse, scheduled for completion within six months, is part of the company's comprehensive expansion strategy. This initiative aims to boost inventory levels and accommodate a new SEEK machinery, enhancing operational efficiency as part of its strategic growth plan.

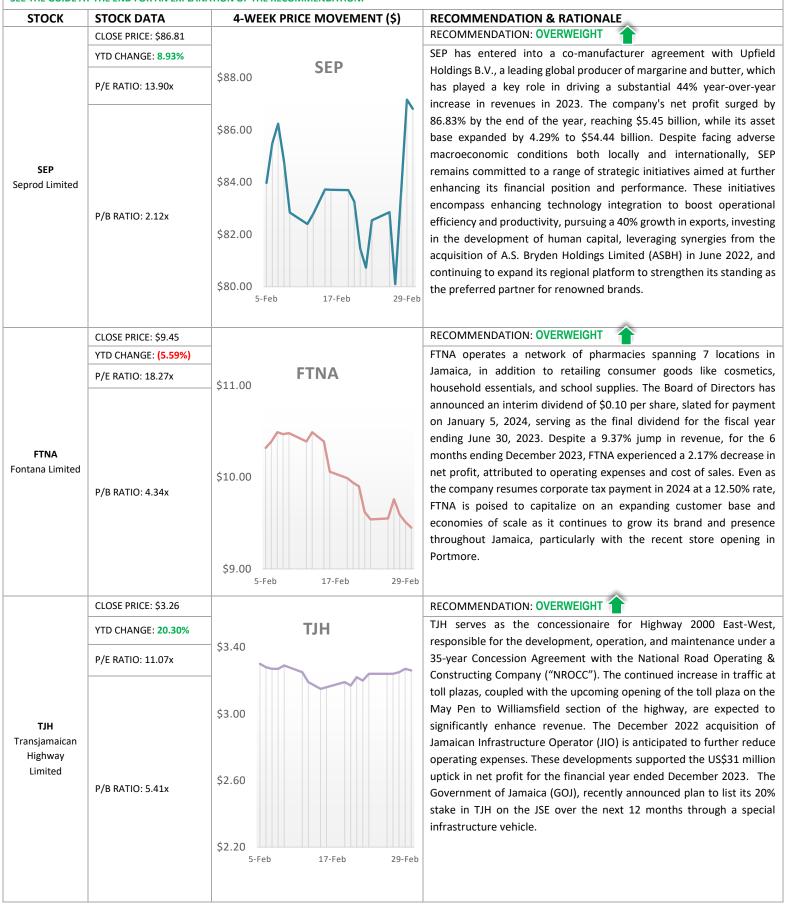

RECOMMENDATION: **OVERWEIGHT**

As a result of a substantial increase in the share of profit from associates, primarily due to a one-time gain resulting from Sagicor Financial Company Limited's (SFC) acquisition of a 100% equity stake in Ivari Holdings, JMMB Group Limited (JMMBGL) experienced a \$16.99 billion rise in net profit for the nine months ending December 2023. JMMBGL benefited from this acquisition due to its 23.44% ownership stake in SFC. Additionally, JMMBGL introduced the Moneyline App, enabling clients to conveniently manage both banking and investment activities. To bolster the company's stock price, JMMBGL continued its share buyback program, acquiring a total of 25,000 ordinary shares.

TOP 5 PICKS FOR 2024

TOP 5 PICKS FOR 2024

SEE THE GUIDE AT THE END FOR AN EXPLANATION OF THE RECOMMENDATION.

WISYNCO WISYNCO Group Limited	CLOSE PRICE: \$21.00	wisynco
	YTD CHANGE: (2.33%)	\$23.00
	P/E RATIO: 15.19x	\$22.00
		\$21.00
	P/B RATIO: 3.29x	\$20.00
		\$19.00 5-Feb 17-Feb 29-Feb

RECOMMENDATION: OVERWEIGHT

WISYNCO's primary activities involve bottling and distributing water and beverages, manufacturing a diverse array of disposable products for industrial, tourism, and retail purposes, and distributing and retailing food items. In the six months ending December 2023, the company experienced a 12.09% increase in revenue, reaching \$26.98 billion, contributing to a 10.40% growth in net profit. WISYNCO anticipates further revenue growth by introducing five new product lines, which is expected to nearly double monthly production capacity to meet the escalating demand both locally and internationally. To address this demand, the company plans to have a second and third additional manufacturing line operational between February and April 2024, following the first installation in December 2023.

CLOSE PRICE: \$1.11 YTD CHANGE: 40.51% P/E RATIO: 41.33x \$1.30 WIG Wigton Wigton Windfarm Limited P/B RATIO: 2.48x

\$0.70

17-Feb

29-Feb

RECOMMENDATION: OVERWEIGHT

WIG is poised to capitalize on the Ministry of Science, Energy, and Technology's Integrated Resource Plan (IRP), which aims to procure up to 500MW of electrical energy by 2025. Recently, WIG announced a significant development: its joint venture, the Wigton-IEC Joint Venture with Innovative Energy Company DBA IEC SPEI Limited, has secured a lucrative contract worth US\$7.78 million with MBJ Airports Limited, dated December 22, 2023. This contract involves the design, engineering, and installation of roof-mounted and floating solar photovoltaic systems, boasting a capacity of Six Megawatt Alternating Current (6 MWac), complemented by a Battery Energy Storage System. Despite encountering a decline of 17.50% in production and a marginal 0.10% decrease in availability for the nine months ending December 2023, resulting in a 13.70% revenue dip and a 2.60% net profit decline, WIG remains proactive. In February 2024, WIG entered into an Addendum to the Power Interchange Agreement concerning Wigton Phase I with the Jamaica Public Service Company Limited. This addendum extends the operation period for another three years from April 2024, facilitating the continued generation of energy using existing equipment at the plant.

Key to Analyst Recommendations

OVERWEIGHT	Security is deemed to be undervalued and is expected to outperform compared to the average market return and/or return of comparable securities in the same sector or industry with at least 10% price appreciation anticipated. The underlying company and/or relevant market conditions are expected to be favourable for the security in subsequent periods.
MARKETWEIGHT	Security is expected to provide similar returns compared to the market in general or at the same pace as comparable companies; neither strongly positive nor negative with a range of roughly -10% to 10% in expected price change.
UNDERWEIGHT	Security is deemed to be overvalued and is expected to underperform compared to the average market return and/or return of comparable securities in the same sector or industry with at least 10% downside anticipated. The underlying company and/or relevant market conditions are expected to be unfavourable for the security in subsequent periods.
ZERO WEIGHT	This security is substantially distressed or at risk of a shock which may significantly impair value.
