branch to a larger facility and planning its first fully digital branch in Kingston to improve client accessibility. Additionally, the company remains cautious amid global economic uncertainties but aims to drive core revenue growth through cost management and strategic diversification. With its focus on digital transformation, expansion, and private equity investments, JMMBGL is well-positioned for long-term growth and value creation for investors.

RECOMMENDATION: OVERWEIGHT 1

TJH, the concessionaire for Highway 2000 East-West, operates under a 35-year agreement with NROCC, overseeing the highway's development and maintenance. Revenue growth is expected with the May Pen-Williamsfield toll plaza now operational, rising traffic at existing plazas, and the upcoming Rubis Energy gas station on the Portmore leg in 2025, which should further boost highway usage. Additionally, the J\$9 billion public offering of NROCC's remaining 20% stake in TJH at J\$3.60 per share presents an opportunity for increased public ownership and investment participation. In 2024, TJH posted a record profit of US\$31.32 million, reflecting 30.7% year-over-year growth, while its annual dividend payout increased slightly to J\$0.1895 per share, with distributions in April and October. With Kingston's rising cost of living driving more commuters from surrounding parishes and the government's commitment to infrastructure expansion, TJH is well-positioned for sustained growth, making it an attractive longterm investment.

RECOMMENDATION: OVERWEIGHT

Wigton Energy, formerly known as Wigton Windfarm Ltd., is strategically positioned to capitalize on Jamaica's Integrated Resource Plan (IRP), which targets 500MW of renewable energy by 2025. The company has diversified its energy portfolio by expanding into solar energy, with a notable contract to provide solar power to MBJ Airports Limited and securing a major solar project in partnership with SunTerra Energy. Additionally, Wigton is further enhancing its market presence through solar leasing agreements with prominent partners such as Jamaica Inn and Carreras, and has also been granted a new generation license to repower Phase I, increasing its wind energy capacity. In Q3 2024, Wigton reported a 3.2% increase in revenue and a 70.2% surge in net profit before taxes. However, a 53.4% decline in net profit after taxes was attributed to a one-time tax expense, which is expected to normalize in future periods as the company continues its growth trajectory. Wigton's expansion into solar energy, alongside its commitment to electric vehicle opportunities and Jamaica's renewable energy goals, strengthens its position for long-term success. With an ongoing focus on regional expansion and a diversified renewable energy portfolio, Wigton's future growth prospects remain strong.
