Where payment is made by cheque the relevant cheque clearing period will apply before the purchase is processed. Where a cheque is dishonoured by the Manager's bank, for any reason, the Manager reserves the right to immediately cancel the corresponding investment held on behalf of the Unit Holder/applicant. All costs associated with dishonoured cheques will be charged to the Unit Holder/applicant. A receipt or other confirmation of purchase will be issued to the Unit Holder.

Redemption requests up to a maximum of Five Million Jamaican Dollars or its equivalent in other currencies must be received by the Manager by 12:00 noon Jamaican time in order to redeem Units at that day's Net Asset Value ("**NAV**") per Unit. Redemption requests received after 12:00 noon will be processed on the following Business Day using the applicable NAV per Unit for that day. In relation to redemption requests up to Five Million Jamaican Dollars or its equivalent in other currencies, disbursement will be made on the day of processing; and for redemption requests above that amount, disbursement will be made on the third business day following processing.

The Manager may suspend the right of Unit Holders to redeem Units for the reasons set out in the Trust Deed:

- (i) the existence of a war, national disruption, major financial crisis, act of God or any like state of affairs which constitutes an emergency as determined by the Manager in its sole discretion, as a result of which the Manager shall determine that disposal of the Deposited Property or any Portfolio by the Trust is not possible in an orderly manner;
- (ii) the means of communication or data processing facilities necessary to determine the price or value of any part of the relevant Portfolio or of the Unit Holders' beneficial interests do not function satisfactorily;
- (iii) the transfer of funds involved in the realization or acquisition of any Investments of any relevant Portfolio is not physically possible;
- (iv) the redemption would result in a violation of any provision of law in any relevant jurisdiction; or
- (v) the Manager considers it advisable and in the interests of the Trust to suspend the right of Unit Holders of a Portfolio or any one thereof to redeem Units.

Orders to buy Units in the Portfolios must be received by the Manager by 2:30 p.m. Jamaican Time in order to purchase Units at that day's NAV per Unit. If not received by 2:30 p.m., purchase requests will be processed on the following Business Day, using the applicable NAV per unit for that day.

B. Valuation and Pricing Of Units

When the Trust or a Portfolio is first established, Units in each Portfolio will be offered at a stated price during a stated period that the Manager will establish.

After this initial offering period, the price of a Unit in a Portfolio will be determined by the Net Asset Value per Unit for that particular Portfolio. The NAV is the fair value of the total assets of a Portfolio less the fair value of the total liabilities of that particular Portfolio as at the date of valuation calculated in accordance with the accounting standards used in Jamaica. The NAV per Unit of each Portfolio will be calculated by dividing the NAV of the particular Portfolio by the number of Units in circulation at the end of the particular day of valuation. Prices of Units are published in a daily newspaper, either the

Gleaner or the Daily Observer, at least once per week, and will be available at www.vmwealth.com.

Portfolios in the Trust are valued on each business day, or such business days that the Manager may direct, at the NAV per Unit prevailing as at 3:00 p.m. on that valuation day.

Units may be purchased at the NAV per Unit and added to this will be:

- (a) a preliminary charge which shall not exceed 5% (this preliminary charge may be waived at the Manager's discretion); and
- (b) such tax and/or charge as the Manager deems appropriate and/or represents an appropriate provision for fiscal and purchase charges inclusive of any General Consumption Tax payable or other taxes or levies which may be imposed by the Government of Jamaica from time to time.

The preliminary charges that are currently applicable are:

PORTFOLIO	CHARGE
VMWealth Classic Equity Growth Portfolio	2.00%
VMWealth Classic Property Portfolio	2.00%
VMWealth Global Equity Growth Portfolio	1.50%
VMWealth RED (Real Estate Development) Portfolio	2.00%

Any increases in the preliminary charge or any of the above charges are subject to the Manager providing notice of the increase at least one month in advance of the effective date.

C. Registering and Transferring Units

Upon the purchase or redemption of Units, Unit Holders will be issued with a Transaction Note confirming the transaction. The purchase or redemption will also be recorded in the Register. The Registrar will be responsible for keeping and maintaining a Register of all Unit Holders. This Register contains the details of the Unit Holders, including their names and addresses, and the details of their holdings, including whether such holdings are held jointly.

Unit Holders may transfer any Units. Evidence of the genuineness of the request may be required. A change in ownership of Units may also take place upon the death, bankruptcy or incompetence of a Unit Holder. The relevant document providing proof of the basis of a change in ownership must be provided. In the case of death, Grant of Probate or Letters of Administration will be required. The transferee will be subject to the conditions imposed on Unit Holders and will be registered in the Register as the owner upon the transfer being effected.

D. Minimum Holding Period and Early Redemption Charge

The minimum holding period for units in the respective Portfolios is as set out below. The Manager reserves the right to apply the fees also set out below if the investment in a Portfolio is less than the stated minimum.

- (a) A government which has received an investment grade credit rating, and
- (b) securities issued or guaranteed by the Government of Jamaica and the Bank of Jamaica.

The Manager will always aim to maintain the stipulated investment restrictions above. However, should the limits be exceeded by either appreciation in the value of the assets in the Portfolios, or any other market indicators, the Manager may not acquire any further assets of that particular class of assets while the relevant limits of the particular class of assets are exceeded.

The Trust may borrow money from time to time, including for the purpose of accommodating requests for realisation of Units and for investment purposes. No borrowing shall be effected if immediately thereafter the aggregate amount outstanding of all such borrowings would exceed 10% of the value of the Trust Fund (*as such term is defined in the Trust Deed*) or such other maximum as may be prescribed at law. The period of such borrowing shall not exceed 12 months. All borrowings will be outlined in the financial statements of the Trust.

For the purpose of securing any such borrowing and interest thereon the Trustee will be able to charge or pledge any of the investments comprised in the Trust Fund. All interest and expense directly incurred in effecting, maintaining and terminating such borrowing are payable out of the Trust Fund.

8. PRICE MOVEMENTS IN THE TRUST

The benefit of a Unit Trust is that the investor has the opportunity to participate in a pooled investment comprised of short to medium term securities managed by a team of competent and professional financial experts. The pooled fund approach provides the investor with the possibility of a higher yield on investments than if they had individually invested in all the investments comprising the Trust. Notwithstanding, the investor must be made aware that there will always be price fluctuations in the assets held in the Trust. As such, the past performance of the Trust should not be taken as a guarantee for future performance.

Important – if you are in any doubt about the contents of this document, you should seek independent financial advice. The Investor must be made aware that collective investment schemes own different types of investments depending on their investment objectives. The value of these investments may change from day to day, reflecting changes in interest rates, economic conditions and company news. As a result of these changes, the value of the fund's securities may go up or down and the value of your investment in the fund, when you redeem it, may be more or less than when you purchased it. The full amount of your investment is not guaranteed. Past performance of the collective investment scheme should not be taken as an indication of future performance.

9. TAXATION: ACCUMULATION AND DISTRIBUTION OF INCOME

The income received by the Trustee of this Trust is exempt from Income Tax in accordance with Section 12(1) (t) of the Income Tax Act. However any income payments made to the Unit Holder are subject to withholding tax of 25%, including those holding withholding tax exemption certificates. It shall be the responsibility of those individuals and corporations holding such certificates to claim directly on the relevant tax authorities in Jamaica for a refund of applicable withholding taxes. Money Market Funds, which are funds in which at least 51% of the value is comprised of interest bearing instruments and operate in accordance with Section 12(1) (ak) of the Income Tax Act, are exempt from individual tax if those individuals hold the investments for a minimum of 5 years and the investments do not exceed J\$1m in any year.

The Manager may determine to distribute all or any part of the capital or income of any Portfolio to the Unit Holders of that Portfolio and to make any interim or periodic distribution that it deems fit. Such distribution shall take place on such business day that the Manager determines. All distributions will, in the absence of instructions from the Unit Holder to the contrary, be reinvested in additional Units of the Portfolio at the NAV per Unit of such Units calculated on the date of distribution, in which event the Unit Holders enjoy the benefit of this reinvestment through accretions in the price of their units.

10. RISK FACTORS ASSOCIATED WITH THE TRUST

An investor in a unit trust will always face risks in investing in different instruments. Some of the risks that are associated with investing in a unit trust are:

- (i) General Market Risk – the fluctuations in interest rates and general market trends will affect the value of the investments in a positive or negative manner.
- (ii) Inflation Risk –the value of the assets that comprise the Portfolio or the income derived from the investments in the Portfolio will decrease as inflation reduces the purchasing power of a currency.

- (iii) Liquidity Risk – the Trust may not be able at some times to easily and quickly trade securities at a reasonable price. Securities in a Portfolio that become illiquid or difficult to sell may need to be sold by the Manager at a discount to its fair value which would affect the value of the Units in the Portfolio.
- (iv) Management Risk – the performance of the Trust may depend on the expertise and investment techniques of the Manager and its team, which may change.
- (v) Credit Risk – the issuer of the instrument, or other responsible party, may default in making payments thereby reducing the value of the Units in a Portfolio.
- (vi) Currency Risk – securities held in a Portfolio may be denominated in foreign currencies. Fluctuation in the foreign currencies will affect the value of the foreign currency securities.

The Trustee and the Manager shall also be entitled to be reimbursed for all costs and expenses incurred by them in connection with the Trust.

12. CONFLICTS OF INTEREST

The Manager and/or the Trustee may from time to time be the manager for another collective investment scheme. The Manager and/or the Trustee, along with their subsidiaries and affiliates, may be involved in financial, investment or other services that may cause conflicts of interest with the Trust. These services may be offered to third parties, including issuers of securities comprised in the Trust, and the Manager and/or the Trustee will not be liable to account to the Trust for any profit earned from any of those services.

Also the Trustee and the Manager shall be entitled to retain out of any money in its hands as part of the Deposited Property of the Fund or the Portfolio all remuneration, fees, costs, charges, expenses, claims and demands incurred, made or apprehended by them in connection with or arising out of the termination of the Portfolio or fund.
